Caribbean My Appraisal Portal

We are pleased to announce the launch of My Appraisal Portal in the Caribbean, effective today June 9th, 2016.

My Appraisal Portal is a free tool offered to our appraisers in the Caribbean and Canadian markets. The tool allows appraisers to manage their non-NAS appraisal requests within the portal, giving them access to all the data housed within their personal NAS accounts.

With My Appraisal Portal, appraisers can:

- Use the full suite of NAS forms for all of their appraisal assignments
- Create templates and clone reports for efficient appraisal writing
- Manage their accounting
- Assign appraisals to specific appraisers within their company
- Access the comparable sales database offered exclusively from NAS on any assignment

Appraisers can access My Appraisal Portal when logging in, and can switch back and forth between the systems using the menu.
